

SYMBIOSIS INSTITUTE OF TECHNOLOGY, NAGPUR

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956)

Re-accredited by NAAC with 'A++' Grade | Awarded Category – I by UGC

Founder: Prof. Dr. S. B. Mujumdar, M. Sc., Ph. D. (Awarded Padma Bhushan and Padma Shri by President of India)

Practical No. : 1

Aim -

Demonstrate inline, internal, and external JavaScript; use console methods; create a webpage showing user info and a welcome message.

Software/Tools Required –

VSCode, Chrome, HTML5, CSS3, Javascript (ES6)

Experiment Program Code –

index.html

```
<html>
  <head>
    <title>
      js lec1
    </title>
    <script>
      function showWelcome() {
        let name = document.getElementById("name").value;
        let age = document.getElementById("age").value;

        document.getElementById("output").innerHTML =
          "<h2> Welcome, " + name + "!</h2>" + "<p> Your age is : " + age + "</p>";

        console.log("User name : " + name);
        console.info("User Age : " + age);
        console.warn("This is a warning message");
        console.error("This is a error message ");
      }
    </script>
  </head>

  <body>
    <h1>User Info</h1>
    <h4> Enter your name </h4>
    <input type="text" id="name" placeholder="Enter name">
    <h4>Enter your age </h4>
    <input type="number" id="age" placeholder="Enter age">

    <button onclick="showWelcome(); greet();"> Submit </button>

  </body>
</html>
```

```
<div id="output"> </div>
<script src="scriptt.js"> </script>
</body>
</html>
```

script.js

```
function greet() {
    alert("Welcome to Javascript Programming");

    console.table([

        {

            Name: "Sample User",

            Course: "JavaScript"

        }

    ]);

    console.time("Execution");

    console.timeEnd("Execution");

}
```

Output -

Case Study Title –

Create a webpage for college department and link the student information page with it and write a Java Script Program to Display "Welcome to SIT Nagpur!" in an alert Box.

Case Study Program Code –

```
<!DOCTYPE html>
```

```
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

Conclusion –

Thus, the basic concepts of JavaScript were successfully studied and implemented. Different methods of including JavaScript, browser developer tools, console methods, alert boxes, DOM manipulation, and event handling were understood through the development of an interactive web page.
